In Brief

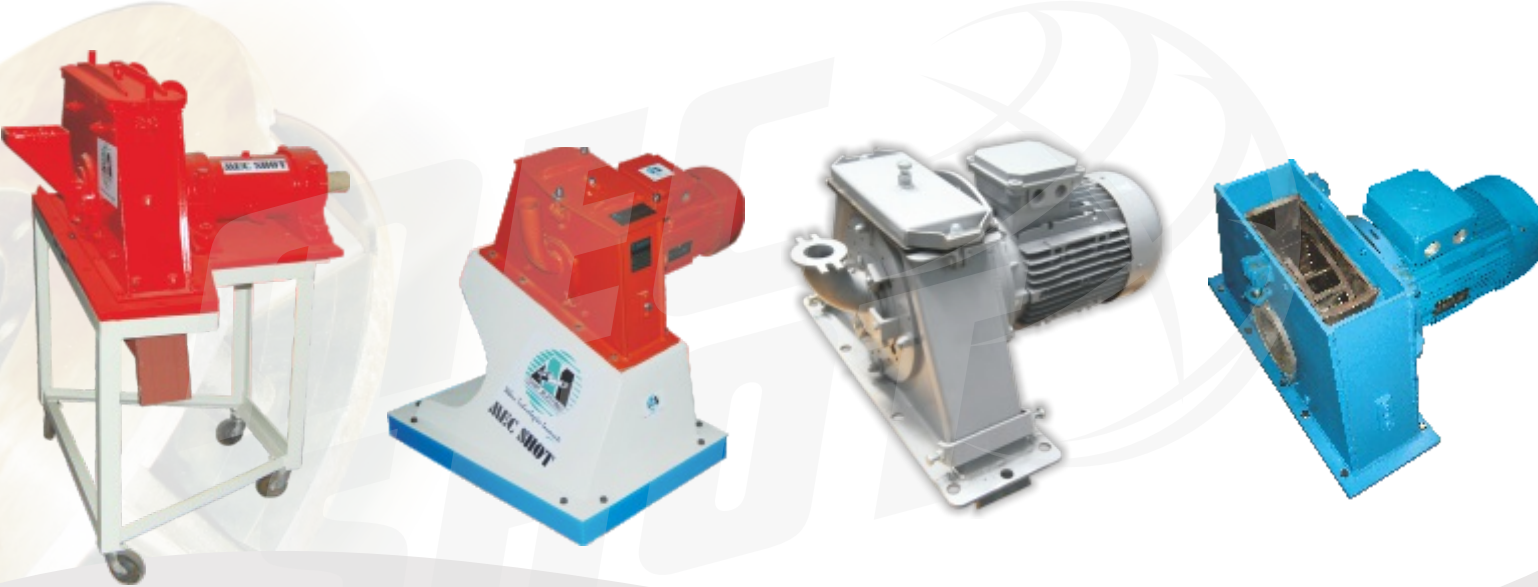

MEC SHOT, a pioneer name in technology innovator & solution provider in surface preparation. An organization with vast experience in Surface technology provides its customer a total solution. The Preamble of Mec Shot Policy is to serve its customer with cost effective & in time services utmost to their satisfaction. MECSHOT has developed a tradition of providing quality product & services to its various customers. MEC SHOT is India's leading manufacturer & suppliers of Airless, Air-operated Abrasive Blasting Machines, Blast Room System, Robotic Shot Peening Machine, Blast Room System, Painting & Baking System, Dust Collector, Consumable etc.

MEC SHOT manufactures Airless Blasting Machines for surface preparation for the Indian & Overseas Industries. Both the systems of blasting in surface preparation has their merits & demerits.

In Airless Blasting Machine the blast cleaning media is propelled by centrifugal blasting wheels. Automation is provided by Tunnel, Swing Table, Tumblast, Hanger Type etc.

Mec Shot Hi-speed Blast Wheel produces hi production. These wheels are available with the various wheel diameter as appendant below :

Description	12½"	15½"	15½"	19½"	19½"	19½"	21½"
RANGE	1	2	3	4	5	6	7

In Shipyard or Marine Industries bulk size of steel plates and structures are used. As the ships have to float on sea-water the hull and side wall's steel structure remains dipped in salty water of sea. To increase the resistance of these structure requires special engineering technique. MEC SHOT helps

marine industries by providing inline Surface Treatment Systems (STS) in preservation Line.

MEC SHOT STS includes pre-heat treatment for plates, blast cleaning chamber, blow off chamber, painting Chamber with Flash Off Zone for drying and Baking Chamber for baking the primed surface of thick plates.
